Jossy Chidi

Technical Support Analyst

Calgary, Canada | +1 (825) 526-2848 | jossy.wike@gmail.com | linkedin

Technical Support Analyst / Software Engineer with 3+ years of experience developing and deploying scalable full-stack applications using **Python/Django, React, and AWS**. Proven track record in **cloud infrastructure optimization, test-driven development (90%+ coverage)**, and **database performance tuning**. Active **(ISC)² member**, demonstrating a strong commitment to cybersecurity best practices and secure software design.

Work Experience

Bell (Calgary, Canada)
Sales Associate · November 2024 – Current

- Provided expert front-line **technical and product support** for mobile devices, accessories, and network services, ensuring seamless customer experiences.
- Resolved complex **device setup, connectivity, and software issues**, guiding customers step-by-step while maintaining a high satisfaction rate.
- Ranked **#1 in customer Google reviews (Feb 2025)**, recognized for empathy, patience, and technical accuracy in resolving customer issues.

Rexera (formerly InspectHOA) – Remote (San Francisco, USA):
Software Engineer / Technical Support · *Jan 2024 – Jun 2024*

- Delivered **technical support and troubleshooting** for web-based platforms, diagnosing and resolving issues across front-end, back-end, and cloud infrastructure.
- Collaborated closely with QA and customer success teams to **resolve client-reported technical issues** and implement sustainable solutions.
- Achieved **90% unit/integration test coverage**, improving code reliability.

Software Engineer Intern · *Jun 2023 – Dec 2023*

- Developed **RESTful APIs** with Python/Flask and implemented automated test suites.
- Applied **SOLID principles** to improve maintainability and scalability.
- Supported production issues and contributed to architecture discussions.

Projects

EDSU Medical Student Association Platform

- Led a small team to build a platform for **managing student dues & payments** for over 600 students.
- Implemented **real-time notifications** and developed a responsive **React + TypeScript + Next.js + TailwindCSS** frontend with a **MongoDB/Node.js backend**.

Vertikal – AI Travel Planner

- Designed and developed an AI-powered travel itinerary generator leveraging LLMs (DeepSeek/OpenAI APIs).
- Implemented PDF export (jsPDF) and custom backend for history tracking.
- Built a React + Node.js + TailwindCSS frontend with chat-based UI for interactive trip planning.

Education / Certification

- **BSC Computer Science** – EDO STATE UNIVERSITY IYAMHO 2019 - 2024
- **ISC2** – CERTIFIED IN CYBER SECURITY 2025
- **ALX Software Engineering Program** – Holberton School 2021 - 2022
